

A good handle on everything

The new special tools
for timing chain systems.

SCHAEFFLER

FAG

Always ready to go: Easily repair and install timing chains.

As our partner, you know the benefits of the technically fine-tuned chain drive systems from INA. INA special tools for timing chain drives, designed to repair all main engines from the Volkswagen Group, make it particularly convenient and efficient to perform inspection, repair and assembly tasks.

With the basic tool kit for TSI 1,0–1,6 l, the supplementary tool kit for TSI 1,8–2,0 l or the complete tool kit for all the specified engines, you will always have the right tool to hand.

If you are interested in receiving the latest product news, fitting instructions, training or events, take a look at Schaeffler REPERT, which brings a new dimension to workshop services. Simply sign up now for free at www.repxpert.com
